

# Health Checkup at Dew Drops

The happiness and well-being of our little ones at **DEW DROP** is always a priority. To ensure that the children continue to grow healthy and active, a routine **health check-up** was organized on **05 June 2026** by the **Office of Administration** in collaboration with the **Department of Nursing**.

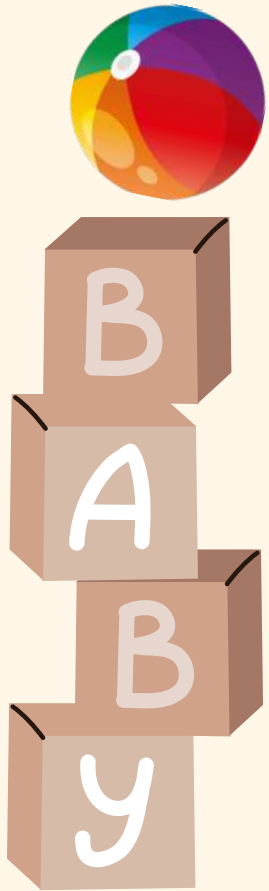

The health check-up was conducted by **Ms. Kanika Sharma, Assistant Professor** and **Ms. Deeksha Sharma, Assistant Professor, Department of Nursing, Chitkara School of Health Sciences**. The children were examined for their overall health, growth, and development in a friendly and caring environment.

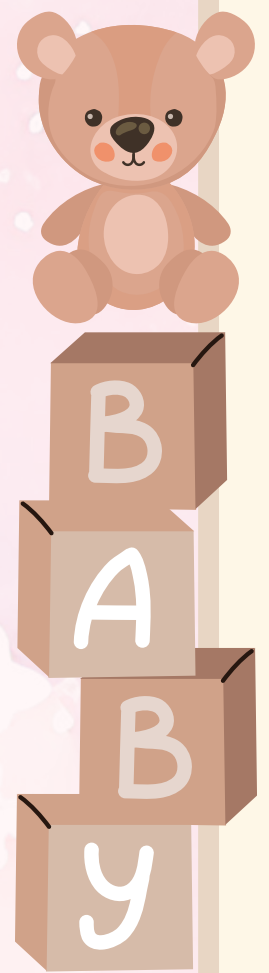

Parents also interacted with the resource persons and discussed any health-related concerns regarding their children. The observations were recorded in each toddler's health card, helping maintain a regular record of their health and growth.

Organised By :

**Office of Administration**

To keep track of the health and growth of our little ones, every toddler at DEW DROP has **Personal Health Card**. Details from each health check-up are recorded regularly, helping us monitor their well-being and celebrate their healthy growth journey.
